

Meeting Agenda

Date: 2014-04-28

Facilitator: Pontus Eriksson

Participants: Hampus Dahlin, Björn Hedström, Pontus Eriksson, Malin Thelin

1. Objectives (10 min)

- Get project on track - Assign tasks.
- Minor planning for coming week.

2. Reports

- SDD delayed.
- RAD under construction.
- Coupling connections has been started.
- Started examining how we can play songs in real-time, without pre-analyzing them.

3. Discussion items (35 min)

- Dynamic background could require too much performance.
- Need to fine-tune beat-detect-thresholds.
- User could possibly choose song-genre.

4. Outcomes and assignments (5 min)

- Malin: Complete SDD.
- Pontus: Start fine-tuning thresholds. Add song-genres.
- Björn: Try to figure out a way to play a song silently. Write RAD.
- Hampus: Continue coupling.

5. Wrap up

- Next meeting 11:00-12:00, friday 2014-05-02
